

The Bird Rescue Center
of Sonoma County

Help! I found a baby bird

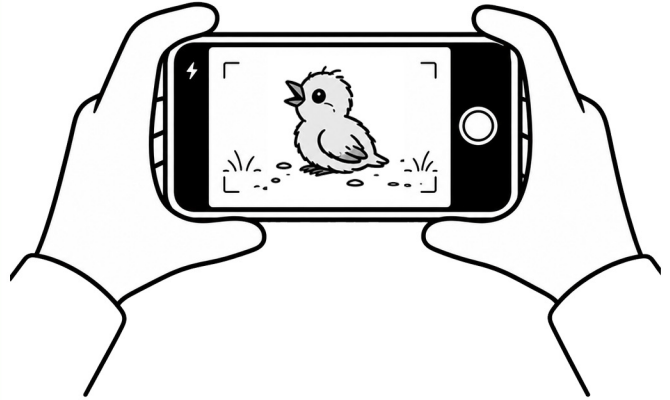

STEP 1

**If you've found a bird,
observe it from a distance.**

- Is it in a safe area?
- Does it appear injured?
- Are there other birds in the area?
- Are they feeding the bird?

STEP 2

Take 2 photos:

- One photo of the bird
- One photo of the surrounding environment

STEP 3

Call us: 707.523.2473

We will instruct you on where to send your photos and next steps

POSSIBLE OUTCOMES

1. We may ask you to leave the bird alone
2. We may walk you through the steps of a re-unite with the parents
3. Or, we may ask you to capture the bird, place in a cardboard box with a cloth liner, and bring it into our center for a wellness check

ADDRESS

3430 Chanate Road
County Farm Drive
Santa Rosa, CA 95404
