## Ready to Snuggle Up After Braving the Black Friday Crowds and Rain?

If you're feeling like this little fellow, maybe it's time to hunker down inside, away from the rain and crowds.

Birds like this Great-Horned Owl come to us from all over the County (and sometimes even farther). Some are with us for a short time, others spend months before they can be released. We spend hundreds of hours and thousands of

dollars making sure they get a second chance. Your support makes this happen - we can't do it without you. When you give to Bird Rescue, you are giving the gift of life!

# #GI ING TUESDAY

**#Giving Tuesday is November 27th, 2018**

Black Friday, Small Business Saturday, Cyber Monday - these are all great shopping opportunities. But OUR favorite day is Giving Tuesday! As you're taking advantage of all the sales and shopping discounts, please consider making a donation to The Bird

Rescue Center in honor of #GivingTuesday on Tuesday, November 27th. Your support is critical to our mission. We can't care for the over 3,000 native wild birds we handle each and every year without you.

[\*\*#GivingTuesday - Use this link to help us save our native wild birds!\*\*](#)

It's been another busy year. As of today, we've already helped over 3,000 native wild birds and we've worked hard to spread the message about the work we do and the importance of our native wild bird populations.

#### **Here are some Fun Facts from 2018**

A record **47 admissions in ONE DAY** - the highest number ever!

**41 Raptor patients at one time** - another all-time record!

Over **1 MILLION meal worms** consumed!

**83% Survival Rate** - that's a lot of birds going back to the wild!

Over **25,000 mice consumed**

Approximately **50,000 people** at 100 different events learned about our work!

#### **We Really Need Your Help**

Food, medicines and veterinary care all add up, even with the generous donations of time and services we receive. We are so grateful for all the support we get - in time, effort and dollars. Without it, we couldn't continue to care for the thousands of birds that desperately need our help.

In this season of giving, we turn to you once again. Your donations will ensure we are able to continue our work in the coming year. Here are just some of the costs we incur each year during Baby Bird Season (May-September) - our busiest time of year.

**\$250** will buy enough mice to feed our raptor patients and residents for **one day**

**\$150** will pay for most of the medications used **every day**

**\$100** will cover the cost of formula for specialized dietary care for **one week**

**\$50** will pay for 10,000 meal worms, enough for about **one day**

**\$50** will keep us stocked in seeds for our songbirds for a **full week**

**\$50** will pay for the disinfectants used **each month**
