First Open house for 2018

Come visit our resident raptors, January 6th, 2018

The first patient for the year,(001), was a Red-Tailed Hawk found on the ground. It came in very thin and was unable to stand. It is now in stable condition and standing,

You can read more about the Red-Tailed Hawk (001) in our hospital on our [Facebook](#) page.

Unfortunately, you are unable to see the Red-Tailed Hawk in our hospital, but you can visit us at our open house this **Saturday, January 6th**, and learn more about Red-Tailed Hawks as well as all our other resident raptors.

Our three resident Red-Tailed Hawks.
