

The Bird Rescue Center
of Sonoma County

Brave Baby Barn Owl

Hi there! I was the littlest Barn Owl to come to Bird Rescue this year and one of the earliest raptor babies. I was comfortably living in my box with my family when after only 1 week of bliss, on March 18th, some small humans shook my box and I was too small to hold on and fell out. Luckily a different, valiant little human saw what happened, scooped me up, and got a larger human involved. My leg wasn't feeling great so luckily I made it to [The Bird Rescue Center](#) and they put this contraption on it to make it feel better and more in place.

For my full story and to see me grow up to be the Rockette pictured on the right, visit our [Facebook page](#).

Baby Barn Owl shortly after arrival thinking 'Where did that come from?'
