Remember me from earlier this week? *The Baby Barn Owl?*

Now that the 4th festivities are over, I had a short stay in Bird Rescue's rehabilitation hospital from the 28th of June to July 5! I was clearly the outspoken child by lunging and hissing at the staff and volunteers the entire length of my stay. Everything checked out and our Raptor Release Coordinator, Natalie Getsinger, with Director of Avian Care, Ashton Klutz, took me back home to my box in Sebastopol. With a slight wind, my human 'friends' took out an orchard ladder and held tight as we made the trip up and placed me back in the box. I'll admit there was a little kicking and screaming when I was reunited with my siblings, but I'll try to stay with them until I'm older now that I know our box is being watched so diligently. Thanks to the Good Samaritans who noticed me and picked me up, and thanks to Bird Rescue for the "free food" and a break from my siblings!

18 RESIDENT RAPTORS UP-CLOSE

enjoy APPETIZERS & REFRESHMENTS

fun EDUCATIONAL ACTIVITIES & GAMES

RAFFLE prizes!

Join the fun at the 5th Annual **Festival of Feathers!**

Saturday Sept 23 11am - 3pm
3430 Chanate Road in Santa Rosa it's free!
